

## The Great Computer Challenge 2013 Internet Scavenger Hunt

### *Level II*

#### Instructions:

Solve **all** ten problems as completely as possible. Partial answers will be accepted. Note that only the final URLs are required.

This form must be completed for the judges.

#### Keep these points in mind:

- The URLs are required. Even if you know the answer, you *must* find the information on the Internet and list the URL where you found the answer.
- Some of the problems may have more than one question.
- Put your school name on each page.
- This document is available on media in Microsoft WORD format. You may use it to copy and paste your answers from the browser to the document. You *do not have* to use the document. If you prefer, you may use the printed copy and write your answers in the spaces provided.
- You must turn in a printed version of your completed form for judging – again, you may have written on the form, or you may have used the computer version. Either is fine, but make sure you have a paper document to hand in at the end of the competition.

1. Who holds the Division 1 record for the most yards in a football game? How many yards did the player gain?

Final URL(s):

[http://wiki.answers.com/Q/Who\\_holds\\_the\\_single\\_game\\_record\\_for\\_All-Purpose\\_yards\\_in\\_Division\\_1\\_A\\_college\\_football](http://wiki.answers.com/Q/Who_holds_the_single_game_record_for_All-Purpose_yards_in_Division_1_A_college_football)
